Mellow Mushroom is a unique place to eat for sure...if you 've been inside you know what I mean. Their pizza is unlike any other pie in town...the decor is loud and proud and what they have to offer on a day to day basis is pretty special too. From Family specials that'll get you all fed for \$25 bucks, to LIVE music, beer tastings and nightly features the Mellow Mushroom is something you just have to experience.

Mellow Mushroom is more than just a pizza restaurant though; it is where Southern Pines pizza lovers and beer lovers gather. As the video shows Mellow Mushroom is as eclectic as their fans.
